| Mac | 14  | 70% |
| PC/Windows | 6 | 30% |
| PC/Linux | 0 | 0% |
Would you utilize a mobile kit of iPod Touch handheld devices for internet use, educational apps, audio books, voice recording, etc. if it was available for your students?

- Yes: 15 (75%)
- No: 5 (25%)

Which platform do you prefer for your teacher station?

- Mac: 13 (65%)
- PC/Windows: 7 (35%)
- PC/Linux: 0 (0%)
Suggestions, wishes, hopes, needs, wants, etc. regarding technology purchases...

- I would use iTouch or iPods if I could download audio books or record a book for kindergarteners to listen to and read along with instead of the cumbersome and difficult-to-use listening centers we have now.
- I really need a new teachers computer
- Wireless internet, new Mac(s), whiteboard
- A laptop that teachers could take home to work on.
- I used to use my classroom Macs ALL the time, but now they are all broken except for three (including the teacher station) so that greatly impedes the use of the computers. I've also tried to do a couple of things with video but have had limited luck because the video cameras (at that point) were all broken in one way or another. Speakers for all of the classroom teachers would be nice too.
- CPS kits
- More student stations
Promethean Board..., pretty please :)  
sturdy earphones  
Internet connection that works  
updated MAC computers (laptops or desktops)  
Newer, faster computers. 
LCD projector
